PROFESSIONAL SUMMARY

Final-year Mathematics student specializing in AI and Data Science, with training from KAUST Academy and eight industry certifications including Andrew Ng's Machine Learning and Deep Learning specializations. Proficient in Python, SQL, and Power BI for end-to-end data workflows — from data cleaning and exploratory analysis to predictive modelling and dashboard delivery. I am passionate about applying data-driven solutions to real-world problems and currently seeking a co-op training opportunity.

EDUCATION

B.Sc. in Mathematics (Senior Year)

Expected: 2026

Prince Sattam Bin Abdulaziz University, Saudi Arabia

- Relevant coursework: Linear Algebra, Probability and Statistics, Calculus, Numerical Methods

Artificial Intelligence Specialization

2026

KAUST Academy

- Covered machine learning theory, deep learning applications, and AI ethics

TECHNICAL SKILLS

Languages:	Python (pandas, NumPy, scikit-learn, matplotlib, seaborn), SQL, Excel (Advanced)
ML & AI:	Supervised and unsupervised learning, regression, classification, clustering, feature engineering, model evaluation
Deep Learning:	Neural networks, CNNs, RNNs — DeepLearning.AI specialization
Data & BI:	Exploratory data analysis (EDA), data wrangling, statistical analysis, Power BI, data visualization
Cloud:	Microsoft Azure (AI Fundamentals certified), Jupyter Notebook, Git

SOFT SKILLS

Analytical Thinking | Problem Solving | Communication | Teamwork | Attention to Details | Time Management

WORK EXPERIENCE

Business Owner & Operations Manager

Jan 2020 – Aug 2022

LONG WAY Cafe, Saudi Arabia

- Built Excel dashboards to track daily revenue and inventory, reducing manual reporting time by ~30%
- Analyzed 6+ months of sales data to identify demand trends and inform staffing and purchasing decisions
- Produced monthly financial reports using trend analysis to support pricing and promotions strategy

Freelance Research Writer

May 2024 – May 2025

Cultural Development Fund - Mansooj, Saudi Arabia

- Conducted structured research and produced analytical content, strengthening documentation and synthesis skills

PROJECTS

Alameen — Insider Threat Detection Platform

- Analyzed user behavior patterns using anomaly detection (isolation forest) to flag potential internal data leaks
- Built a dynamic risk-scoring engine based on frequency, timing, and access-pattern deviations
- Tech: Python, pandas, scikit-learn, matplotlib

AqarHub — Smart Real Estate Platform

- Developed a property recommendation prototype with filtering logic and user-preference matching during a hackathon
- Designed Power BI dashboards displaying price trends and neighborhood comparisons
- Tech: Python, pandas, Power BI

CERTIFICATIONS

- | | |
|--|--|
| Machine Learning Specialization | Exploratory Data Analysis with Python and Pandas |
| Deep Learning Specialization | Analyzing and Visualizing Data with Power BI |
| Mathematics for ML and Data Science Specialization | Azure AI Fundamentals |
| Applied Analytics for Decision Making | Big Data Emerging Technologies |
| Project Management | |
